Cartographic Associates, Inc.
Mr. Tim Fountain
Manager, Parcel Mapping & GIS Services
11 Pleasant Street
Littleton, NH 03561-0267

Dear Tim:

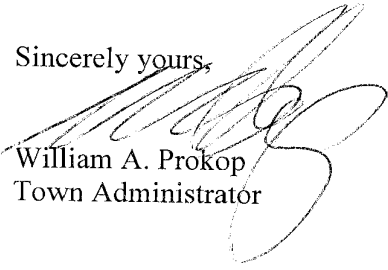

On behalf of the Town of Antrim I wish to thank you for the excellent mapping work that Cartographic did for the Town of Antrim. This was a major project for a town our size as well as a major investment that we felt had to be made.

The end result was a project that far exceeded our expectations. As you know, there was more involvement and time spent on the project by us then we had originally thought, however, the completeness of the work and the new information and organization that we now have was well worth it. The entire project was a great learning experience for us and to have someone like Cartographic working along beside us made it a real educational experience.

In the end we found several parcels of property that were classified as "Unknown Owner". These parcels were never taxed or deeded to the Town. We are now in the process of finding the proper owners or deeding the property. If we deed the property and sell some of the parcels the entire cost of the mapping project will be recovered and we will have tax revenue coming in for years to come.

Thank you again for your work, service, and assistance. Please feel free to use as a very satisfied customer who would be happy to share our experience with any prospective clients you may have in the future.

Sincerely yours,

William A. Prokop
Town Administrator
