

CARTOGRAPHIC ASSOCIATES, INC. (CAI)

has been in the mapping business since 1985. Originally specializing solely in parcel mapping and land surveying, CAI is now a full-service mapping and GIS firm, specializing in a multitude of GIS applications, Public Works Information Management, GPS data collection and full digital integration. CAI prides itself on providing accurate spatial frameworks upon which to build a municipality's GIS.

QUERY MANAGER ONLINE

EASY-TO-USE ONLINE GIS SOLUTION WITH PUBLIC AND STAFF ACCESS CAPABILITY

CAI's interactive online mapping service is now available to municipalities, providing a cost-effective, comprehensive GIS distribution solution. Query Manager Online clients pay no initial software or annual software maintenance fees, and very low setup costs.

The concepts and utility of this software came directly from the needs expressed by our clients. By helping communities provide public accessibility to their GIS data, Query Manager Online:

- ▶ Saves municipal personnel time.
- ▶ Helps support economic development projects.
- ▶ Provides web-based services for police and school collaboration.
- ▶ Creates a connection between town government, local businesses and communities.
- ▶ Allows the general public, including real estate and other professionals, to access data and print maps.
- ▶ Is paired with a user-driven, customized CAMA database update process.

We invite you to visit www.cai-info.com to learn more about Cartographic Associates Inc., our products and services.

To schedule a demonstration of QUERY MANAGER ONLINE call 800-322-4540.

INTERFACE provides easy access to all available tools and functions.

Affordable, easy to use and scalable, using today's most sophisticated GIS and Web service technologies.

- Map navigation, measure areas & lines, identify parcel, versatile print tools
- Find Property and Abutters function including customized reports
- Data layer control including Quick Maps function to access predefined custom map layers
- Multiple map background types including Relief, USGS, Aerial or Parcel
- Integrated property documents
